R134A - Robinair Special - Spring 2018

Features and Benefits - (ROB34788NI)

- Improved recovery and charge performance - Exceeds SAE requirements
- Graphical display
- Expandable - capable of additional feature and function add-ons (printer, wireless, refrigerant ID)
- Automatic Internal tank fill
- 98.5% Recovery
- R134A
- Made in the USA

How can Robinair's industry leading 34788 A/C recover, recycle, and recharge A/C machine get any better? Here's how. The new Robinair 34788NI is a combination of easy to use and superior accuracy. It recovers, recycles, evacuates, leak tests, and recharges R-134a quickly and accurately. The fully automatic function will recover, vacuum, leak test, and charge on its own without the need to stand and monitor the machine. The product is fully SAE J2788 compliant and exceeds the requirements for charge accuracy and recovery efficiency. Robinair's patented Automatic Refrigerant Refill feature maintains a user-selectable amount of refrigerant in the internal vessel and signals when it's time to change supply tank, no monitoring required. Automatic oil drain and inject make putting A/C lubricant back into the system simple and hassle free. A larger, easier to read color display now comes standard on the new 34788NI. The product can also be upgraded to include a printer, refrigerant identifier, or wireless module for wireless communications to Bluetooth devices or an internal shop network. An optional refrigerant charge and oil capacities database is available for North American market vehicles which saves time from having to look up unknown charge amounts.

Recovery and Recycling Unit Maintenance Kit (ROB13172)

Keep recovery and recycling units operating at peak efficiency with a convenient maintenance kit. Contains one quick change filter-drier to be used on both R-12 and R-134a stations, and one 16 ounce bottle of our Premium High Vacuum Pump Oil.

- Filter required to be changed every 150lbs of 134A used
- Vacuum oil required to be changed every 10hrs of use

Pricing good through June 30th

Make it easy from TBA with this package to keep you up and running on AC work!
